

DENTAL INSURANCE

OUR PHILOSOPHY

Our office remains dedicated to providing the highest quality of care for every patient, regardless of insurance coverage. We will work closely with you to achieve that goal. We believe open communication is essential to ensure our relationship is managed professionally and thoroughly.

UNDERSTANDING DENTAL INSURANCE

Dental insurance is provided through a contract between yourself or your employer and a dental insurance company. The coverage you receive is based on the terms of the contract. As a result, not all treatment is covered by dental insurance. We do our best to verify your insurance benefits before your appointment, however the information that we are given by your insurance company is not a guarantee of benefits or payment. While our goal is to provide the highest quality care for every patient, insurance companies often cover only very basic services. These covered services are selected based on the cost of the dental insurance policy and what your insurance company agrees to pay based on that contract. We will work with your insurance company so that you receive the maximum reimbursement to which you are entitled under your current policy. We encourage you to find out how your policy is designed and what your insurance policy covers.

OUR FINANCIAL COMMITMENT

We understand the importance of affordable dental care and are committed to working with you to ensure that you get the treatment that you need. Our knowledgeable team will work with you personally to maximize any insurance benefits available to you. We also offer a variety of convenient and flexible payment options including cash, check, credit card, and Care Credit financing.

To assist our patients, at the time of service an approximate ESTIMATE will be calculated to show what is likely to be paid by your insurance company and the amount due from you based on what insurance benefits you have available.
